JOSIAH TURNER, Jr., EDITOR.

From the New York Herald.

THE WEALTH OF NEW YORK CITY AND STATE.

We published in yesterday's edition of the *Herald*, in tabular form, an official return made by the State Assessor of the Assessed valuation of real estate in the various counties of the State. In the same table returns of the equalized valuation of real estate, the valuation of personal property, and the aggregate equalized valuation of property in the several counties. This very useful and instructive exposition of the tax-bearing abilities of our people opens a wide field for retrospective and prospective contemplation. Not the least gratifying conclusion to be deduced from the facts submitted is that the equalized valuation of property in the State is $94,031,630 greater than last year, and that the valuation of property in New York city has increased $73,704,814 during the past twelve months. So far as our city and county are concerned there are also just grounds of gratulation from a comparison of the figures representing the real and personal property for New York county and that of all the other counties of the State. The term county, which is generally applicable to an extended boundary, is almost a misnomer when applied to New York, for the city proper is, in fact, the county, and the county is this Empire City.

Again, in drawing proper and just deductions from the property returns referred to, and with a view of fairly estimating the value of the personal and real estate of New York, as contrasted with the returns made of the same for the other counties, consideration should be had to the figures credited to Kings county. The City of Churches, almost to an equal extent with New York, includes the county of Kings, and as Brooklyn is really but an appendage, or extension of New York, the great bulk of her wealth and taxable property being drawn from, and the products of, the business and commerce of the port of New York, the returns for these two counties might be fairly classified under the head, "New York city." This would give the two cities, or counties combined, an aggregate valuation of real and personal property of $1,026,402,586, against a total for all the counties of the State of $1,860,120,770, being more than three-fifths of the assessed property of the entire State.

This official certificate of the great preponderance of the wealth and influence of our city must naturally be a matter of pride and gratulation. New York has no gold fields, as California has, no silver mines like Nevada, nor coal and iron mines like Pennsylvania, but she has an unequalled harbor, which makes her the centre of the trade and commerce of the world. In her port arrives the tens of thousands of emigrants that monthly flocks here to found new homes on the broad and fertile lands of this Continent, and who are steadily increasing the population of our city, enlarging its limits and adding to its wealth and prosperity in every material way. Room for these fresh accessions of bone and sinew is what is wanted, and this can only be attained through the aid of railroads running in every direction into the country. Homes for the working classes are also needed. Mr. A. T. Stewart is doing a good work in both these ways—in building up a town where large numbers of mechanics and artisans can find homes, and providing a rapid means of conveyance thereto. This is a large field in this direction of usefulness for our millionaires—let them follow the example set them, and thus make for themselves names that will endure as long as the city stands.

AGES OF ANIMALS.

The average life of cats is fifteen years; of squirrels and hares, seven or eight years; of rabbits, seven; a bear rarely exceeds twenty years; a wolf, twenty; a fox, four to sixteen; lions are long lived—the one known by the name of Pompey lived to the age of seventy; elephants have been known, it is asserted, to live to the great age of four hundred years. When Alexander the Great had conquered Porus, King of India, he took a great elephant which had fought very valiantly for the king and named him Ajax, dedicated him to the sun, and let him go with this inscription: "Alexander, the son of Jupiter, dedicated Ajax to the sun." The elephant was found with this inscription three hundred and fifty years after. Pigs have been known to live to the age of twenty, and the rhinoceros to twenty; a horse has been known to live to the age of sixty two, but averages twenty-five to thirty; camels sometimes live to the age of one hundred; stags are very long lived; sheep seldom exceed the age of ten; cows live about fifteen years. Cuvier considers it probable that whales sometimes live one thousand years; the dolphin and porpoise attain the age of thirty; an eagle died at Vienna at the age of one hundred; ravens frequently reach the age of one hundred; swans have been known to live three hundred years. Mr. Malerton has the skeleton of a swan that attained the age of two hundred years. Pelicans are long lived; a tortoise has been known to live one hundred and seven years.—*Southern Farmer.*

THE WAIST OF THE PERIOD.—Our old friend tight-lacing has again made his appearance. Beaten back for a time, probably more by fashion than by the spread of knowledge, he has not been killed, but has only recoiled apparently for a better spring, for his victims are as numerous and pitiable as ever. The folly is one which was formerly to be found mainly in the drawing-room, but now it also fills the streets. It is lamentable to observe at every turn a woman, young or old, who moves forward in a stooping position, unable even to hold herself upright in consequence of the constraint upon the muscles of the back. If the evils of tight lacing were confined to the distorted appearance which it never fails to produce, we might regret indeed to see the female form divine so defaced, but it would scarcely be in our province to comment upon it. But, as medical practitioners, we see its effects every day in the train of nervous and dyspeptic symptoms by which it is constantly indicated, and in the still more grave and internal mischief of permanent character which is often caused by it. Until some little physiological knowledge is made a part of female education, and is considered an "accomplishment," we suppose it is of little use to protest against the cruel injury to health which women thus inflict upon themselves. The matter is one which is "worse than crime—it is folly," for beauty is destroyed by the process which is intended to increase it.—*London Lancet.*

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with ROWELL'S PATENT DOUBLE COG-WHEELS, and the PATENT SPOUT, are now unquestionably far superior to any apparatus for washing clothes ever invented and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Sidney Robinson.*

"Your Washing Machine has been in daily use in our laundry, and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done both better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, SEPTEMBER 18, 1869.

POPULAR RIGHTS—THE DUTY OF ALL GOOD CITIZENS.

It has been settled, against the will of the white people of the South, that the doctrine of universal suffrage shall prevail in this country. Without reference to what may be the eventual consequence of this questionable policy, as a matter of political economy, we say that every citizen should give the policy a fair and candid trial.—The day has passed by to discuss the propriety of negro suffrage, or Chinese suffrage. Let all accept the situation in good faith and make the most of it. If the poor negro is ignorant and unprepared to exercise the elective franchise, every good citizen do all in his power to educate and encourage him; let us counsel him to be industrious and virtuous and intelligent; let the colored children be educated in proper schools, and let the men be educated by lectures and daily observation; let them be protected in all their rights and educated to vote for none but virtuous and capable men for office. It is our highest duty to secure the best government we can, under the circumstances, and to have such government administered by good and capable men. This is as important for the black man as the white man; and the black man will learn this important fact. In truth, the black people of the State have learned this already to their sorrow. False promises were made to them by faithless whitemen who have duped them, and they are sadly disappointed; they are prepared to go with the good men of the State, who can and will do them benefit; let them be encouraged in doing so.

But we should not lose sight of the great importance of educating more successfully the white people of the State. This is a matter of the greatest importance, and yet it is most strangely neglected. The present State administration have almost wholly neglected the matter of popular education; they have made false promises to both the whites and the blacks, for which outrage alone they deserve everlasting condemnation, and this they will certainly receive, and they will feel it terribly as death by-and-by. These men have found millions of dollars to build up a great "Ring" to plunder and rob the people, but not one dollar for education. Mark that! There is not a single common school in the State!

And now, it appears, we are to have no free schools in the State, at least by State agency. The *Standard* of Thursday has issued the fiat, "no more appropriations *for any purpose!*"

They have exhausted the resources of the State in appropriations to benefit, not the State, but the "Ring," and now, the cry is "Retrenchment," "no more appropriations."

It is the duty of the people to look to this matter, and to say whether these plunderers of the public purse and murderers of the State credit shall now turn and say, "you can have no more appropriations, you can have no Common Schools;" we are going to retrench."

The people desire retrenchment, and will have it; but they will see to it that it shall not be begun at the wrong end.

ROUTE AGENTS.

We have reason to believe the Route or Mail Agents on the Railroads are responsible for the irregularity with which the SENTINEL is distributed.

When Mr. Eddings is on duty the SENTINEL is sure to be distributed with the *Standard*. When some others are on duty, the *Standard* is distributed while the SENTINEL is not. The SENTINEL is taken up the Road and brought back by return mail.

We know this is often the case; whether it be by design or inattention to duty is all the same to our subscribers. If by design, it surely can't be by order of the Governor. All the route agents were recommended for their places by Governor Holden; they feel under obligation to him; it can't be that they are so much obliged that they would do so small and mean a trick, even at the special request of the Governor.

We do not charge that the Governor has made the order or request of the Rout Agents to do this little trick. Nor do we feel called upon to say that the Governor is above such ignoble conduct. We know the Governor did an act, as mean, little and cowardly as this, when he wrote to Brownlow and urged it as a personal favour that he (Brownlow) would not allow Col. Duncan K. McRae to practic law in Memphis. After writing this letter we are sure the Governor could request the Route Agents to go by Post Offices without distributing the SENTINEL, and lose neither cast, character or standing.

The Guilford Co-operative Business Company, chartered by the General Assembly at its last session, was organized on last Tuesday evening, in Greensboro', with about one hundred members. W. A. Caldwell was elected President; A. W. Tourgee, Vice President; W. H. Snow, Secretary, and Z. Mitchell, Treasurer.

KU KLUX AGAIN.

John Clemens, of Chapel Hill, gave us a call yesterday. He was seeking material aid to enable him to get to a cotton country that he might earn something by picking cotton. John said he voted the Conservative ticket at the late election. He had been a Radical, but he had gone down the hill, and got lower and lower from the day he joined the Radicals. He reported the Ku Klux in Chapel Hill; for three nights they had been to his house and given him orders to go to work. John is acting upon their suggestion, for he is now hunting work.

We did hear that the Ku Klux had whipped John because he would not work to support his wife and five children. John only mentioned that he had a visit from them.

One of John's neighbors was whipped by the Ku Klux for abusing his wife. We are in favor of whipping men who abuse their wives, but it should not be done by the Ku Klux. Let the Leagues, Ku Klux, and all secret political societies be dissolved; we say it in the name of mercy, peace and the people. The good order and the peace of society demand it.

TREASURER JENKINS.

We have received a reply to our editorial on the subject of the Chatham Railroad bonds, purporting to have come from Treasurer Jenkins, but we know it is neither in his style nor his writing. The Treasurer is guiltless of composing or writing the paper. However, when old Dr. Johnson was complained of for writing sermons for dull Ministers of the Gospel, and allowing them to claim his productions, he defended the clergy by saying the sermons were theirs, for they bought and paid for them.

We shall treat the paper as the property of the Treasurer, he having bought and paid for it, and it shall appear on Monday. The Treasurer said, before Attorney General Coleman left as the legal adviser of the Governor and his Cabinet, that he "had paid out of his own pocket $500 for counsel and advice." Well, we don't suppose he bought more than he needed; for, say what you please of the Treasurer, he is a frugal man and not apt to buy more of an article than he absolutely needs. The large amount of the article purchased is proof of his wants in that line.

For the Sentinel.

MIDDLEWOOD, Sept. 14th, 1869.

Josiah Turner, Esq.—Dear Sir: Having a leisure half hour on my hands this morning and also one hundred and fifty cents in United States currency, not "otherwise appropriated," I take much pleasure in bestowing both the time and currency upon yourself. My apology for not having remitted the bitter article at an earlier day is, that I have yielded too much to that villainous propensity of deferring until to-morrow what should be done to-day.

Until within the past few weeks, I have, much to my regret, failed to received the SENTINEL, with any degree of regularity. The cause though, I'm confident, has not been yours, but, on the contrary, it has doubtless been the result of the general bad management of which has characterized the administration of affairs since the "late unpleasantness." You must permit me to express my cordial approbation of the vigorous and able manner with which you are conducting your interesting journal. 'Tis indeed most gratifying to an honest, or decent man to know there is at least one man in North Carolina, who has the nerve and ability to expose the fraud and corruption that are festering around the records of the miserable scallawags who now hold the reins of power and misrule, in this once goodly land. I earnestly hope you may be encouraged to go on in the good work, till the Augean stables have been thoroughly cleansed. Whilst recalling the evils and afflictions under which the old North State is groaning, the thought has frequently occurred to me that one of her heaviest and most grievous burdens, is in the fact of R. G. Reade's occupying a seat on her Supreme Court bench. According to my estimate of him, he has neither the learning nor integrity to qualify him for the place. He has long since struck me as answering most literally the description of Shakespeare's character, who had "no music within himself," and was therefore "fit for treason, stratagem and spoils." I am glad to see, however, you so frequently "take the wind from his sails," as his most evident they contain no other element, and that too of the most poisonous nature.—From some of your late issues I see you have been fully advised of the political avalanche that swept over this State on the 5th instant. The result was brought about so suddenly, so unexpectedly, and so overwhelmingly that we can scarcely yet realize the extent of the victory. The carpet baggers though and other minions feel the changed state of things in all its appalling enormity. And as soon as the Legislature convenes there will be such a begira of car pet bags as has not been seen since the days of Mahomet. (I do not state it as a historic fact whether the followers of that prophet employed the aforesaid article of baggage or not.)

My prayer is, that the wave of reform which first broke upon the shores of the Old Dominion, thence "rolling mountain high" over Tennessee, may next expand its accumulating fury over the length and breadth of my native State.

In conclusion, my Dear Sir, allow me to suggest that you must not continue to ignore Person county so completely as you've formerly done. Whilst the columns of your valuable paper frequently contain stirring scenes and thrilling incidents from other counties in the State, not a single remarkable item is given as occurring in the ancient commonwealth of "Slick Tail." Can it be that none of her blooming daughters perform no ingenious sets of handicraft? Do none of her noble mothers increase her population by triplets? Nor do any of her chivalric sons ever kill a "white buck," find two coons up three trees, or do nothing "by flood or field" worthy of the chronicler's pen? Come, sir, there is a squad of us hereabouts from that quarter, and we insist Person must have her name in the paper. She must get up a secession. If nothing else will move the good citizens thereof, you must threaten them with the Gov's welfare.

Promising to let you hear from me again in a few weeks, but in a much more laconic form, I remain,

Yours truly, X.

The berry market in Winston continues active, and prices have advanced to 13 cents cash. So says the *Sentinel*.

NINETEEN bales of cotton were sold in the Charlotte market, on Thursday, at 20½ cents per pound.

PUBLIC MEETING IN PERQUIMANS

At a meeting of the citizens of Perquimans County, held in the town of Hertford, on Saturday, Sept. 11th, 1869, James C. Skinner, Esq., was called to the Chair, and A. L. Bull, Jr., appointed Secretary.

On motion of T. H. Gilliam, Esq., a Committee of Nine: Thos. H. Gilliam, Josephus White, Francis E. Winslow, W. White, Edmond Hollowell, J. J. Shannonhouse, A. S. Jordan, William Small and Willis Whitehead, were appointed by the chair to draft resolutions explaining the object of the meeting.

Upon the withdrawal of the Committee, the meeting was (upon a unanimous call) entertained by a short and pertinent address upon the purposes of the meeting by Thos. Wilson, Esq.

On the return of the Committee appointed to draft resolutions, the following were reported and unanimously adopted:

We, the citizens of Perquimans County, in Convention assembled, do hereby resolve and declare;

1st. That we recognize implicit obedience and quiet submission to lawfully constituted authority, and the strict performance of all public duties legally and constitutionally imposed, as the highest and most binding duty due by the citizen to the State.

2nd. That among such duties we acknowledge the obligation of paying all reasonable, just and lawful taxes, necessary to sustain the credit, and honor of the State.

3rd. That we esteem it also a high prerogative, as well as a solemn duty of the citizen, to resist, by all lawful means, every violation of his legal rights, and every arbitrary imposition of public burdens, not authorized by the Constitution and Laws of the State.

4th. That the present pecuniary position of the people most urgently appeals to our law-makers and rulers for retrenchment and reform in State and County expenses; and the lowest possible reduction of taxes, consistent with the honor and credit of the State.

5th. That we regard and emphatically pronounce our present rate of taxation upon property to be without parallel in the past history of the State; that it is burdensome upon the rich and the poor; and that it is unnecessary to sustain the credit, interest and prosperity of the State.

6th. That this enormous burden of taxation was not anticipated by those of our people who aided in the adoption of our present Constitution and State government, and the imposition of it upon them, becomes a gross and outrageous fraud; a base deception practiced upon a too confiding and unwary people.

7th. That as prudent men, and especially as loyal and patriotic citizens of the State, we solemnly protest against the rampant spirit of self aggrandizement exhibited by our legislators and officers who have speculated wantonly upon the public Treasury; and we deem it our *right* and *duty* to take whatever steps are legal to resist and prevent the collection of these unjust, and, as we believe, unconstitutional taxes; and we pledge ourselves to use all orderly, legal and proper means to have their constitutionality tested and decided upon by the *highest legal tribunal of the State*.

8th. That for this purpose we authorize and direct the Chairman of this Convention to appoint a Committee, to consist of three discreet and intelligent citizens from Hertford township, and two from each other township in our county, whose duty it shall be to confer together upon the question of preparing one or more causes for adjudication by the Supreme Court of the State upon the legality of the taxes, both State and county, now imposed upon us; prepare (by consent of parties) the causes for trial, and employ able and competent counsel, to conduct and argue the same.

9. That a Committee of one from each Township be appointed by the Chairman to collect by voluntary contributions or otherwise sufficient funds to defray the expense of preparing and conducting the said causes; and that both these Committees report to the adjourned meeting of this Convention.

Under the eighth resolution the following gentlemen were appointed by the Chair: For Hertford Township, Thos. H. Gilliam, Josephus White, J. J. Shannonhouse. For Bethel Township, Wilson L. Martin, Edwin Berry. For Belvidere Township, J. W. White, Thos. E. Winslow. For Parkesville Township, Thos. Wilson, James Newbold. For New Hope Township, James W. Mullen, Edmund Hollowell.

Under the ninth resolution, were appointed: Hertford, Jno. A. Morgan. Bethel, Wm. Small. Belvidere, J. R. Hare. Parkesville, J. E. Winslow. New Hope, Anderson Woodley.

On motion of J. W. White,

Resolved, That those appointed to solicit subscriptions take, as a basis in applying for the same, 75 cents on $1,000 assessed valuation, and 25 cents on each poll.

On motion, ordered that these proceedings be forwarded for publication to the *Sentinel* and *Standard*, at Raleigh, and to the *North Carolinian*, at Elizabeth City.

On motion, the Convention adjourned to meet on Saturday, the 25th inst.

JAS. C. SKINNER, *Chairman*.
A. S. BULL, Jr., *Secretary*.

RIGHT REV. GEO F. BAHSON, Bishop in charge of the Southern Diocese of the Moravian Church, died at his residence in Salem on Saturday night last. There was no man in our community who will be more missed or more universally lamented. A man of more than ordinary talents, and of great attainments, and a sincere Christian, he was an ornament and a light to his Church, and looked up to as a friend and instructor by his flock. He died as becomes a Minister of the most High God, full of christian resignation, faith and hope.—*Western Sentinel*.

The Memphis *Post* thus published its own obituary with that of its party in Tennessee:

"We have decided to suspend, for the present, the Daily and Tri-Weekly *Post*.—The prostration of the Republican press throughout the State is a necessary consequence of the late disastrous overthrow of the Republican party. There is not a hungry reading public, in this section as in the North, which reads all sides and devours edition after edition of newspapers. And of the commercial public few have the courage to advertise in Republican newspapers for Republican patronage. The editors of this paper having pluckily struggled against all odds so long, and seeing no political necessity which may not now be met by a weekly Republican paper, prefer to gracefully bow to the coming simoon, which is to sweep Republican office holders and Republican State patronage from the face of Tennessee, so far as to suspend the Daily and Tri Weekly editions and reserve their strength in good condition until such time as it can be more availing. Our friends need not mourn nor our enemies rejoice that the Daily *Post* is dead. We simply suspend it during a lull in the political tempest, to husband the resources of the paper for the future necessities of the party."

Henry McDaniel, a colored preacher, publishes a card of thanks to the white people of Iuka, Miss., for having subscribed a sufficient sum of money to pay his church out of debt. He states that not a dollar was subscribed by the Radicals.

Sir John Franklin.

The Fate of the Franklin Expedition Said to Have Been Discovered—The Secret of the Sea Uncovered.

SAN FRANCISCO, Sept. 13.—A correspondent of the *Bulletin*, said to be reliable, writes from San Buenaventura that a document had been found on the beach at that place on the 30th of August, very badly mutilated. On the document was found a request for the finder to forward it to the Secretary of the Admiralty at London or the British Consul at the nearest point, the request being printed in six commercial languages on the margin. Every vacant portion was filled with writing relating to Sir John Franklin and his party. The document was evidently cast in the water in latitude 69 degrees, 37 minutes, 42 seconds, and longitude 98 deg., 4 min., 5 sec. It gives an account of the desertion from the ships Erebus and Terror. The party numbered one hundred and five at the time of the desertion, under the command of F. R. M. Crossier. They had succeeded in reaching the above latitude and longitude, where they had found relics of the late Sir John Ross.

The document states that the party had wintered at Beechy Island, in 1846 and 1847, and that Sir John Franklin had died on the 11th of June, 1847. It contains many interesting incidents connected with the expedition.

MRS. RAWLINS.

There will be a very general feeling of sympathy in the South for this afflicted lady. During the war she resided at Vicksburg, Miss., as a friend in the family of Mr. Lum, a prominent citizen of that place. Her maiden name was Hurlbart, if we remember correctly. She was greatly admired and respected by all of the Confederate officers who were visitors of the house. Pleasant and winning in manner, the charms of her society and her manifold courtesies and kindness to all of them will be remembered by those who were among the many who were cheered by her kindness and elegant hospitality. Among the throng of her admirers was a brave young officer belonging to Withers' battalion of artillery, C. S. A., who awakened a deeper feeling than friendship in her who was doomed to hear of his death out on the lines shortly afterward, during the last memorable siege. When Gen. Grant, with the late Gen. Rawlins as chief of staff, entered Vicksburg, Mr. Lum's house was occupied. Here it was she met her late husband, who, touched by her great worth and charming qualities, subsequently offered himself and was accepted. All the Southern officers who were at Vicksburg will bear testimony to the undeviating courtesy of Gen. Rawlins to his intercourse with them, and his afflicted widow will now have their heartiest sympathy in her great bereavement.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving unclouding clearness of vision, by candle or any other artificial light, comfort to the spectacle wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unequivocable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Ophthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church,

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is so complete and the finish apparently perfect, I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.
JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me convincing evidence of your scientific skill in optics and your thorough experience as an Oculist.
Your attentiveness in your profession entitles you to the confidence, patronage and gratitude of the public.
I have the honor to be,
Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his conclusion there seems to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."
The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws, picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.
Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages over the Gins named in this advertisement, after fair trial, it will be no sale.
The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
I am Agent for its sale and would be pleased to fill orders.

Mr. Mangum's Address.—Our space and time was too limited on Thursday night, after the exercises at the M. E. Church were over, to notice as it deserved the eloquent and yet very practical address delivered by Rev. A. W. Mangum, before the Sunday School Convention and the very large audience assembled on the occasion. The subject of the speaker was the religious instruction and early conversion of children—the duty of parents, the Sunday School and the Church in this behalf; supporting his positions by arguments, drawn from scripture and reason, and presenting them in such forcible, eloquent and irresistible style as to take hold of the hearts and judgment of all who heard him. We have no doubt that, under the strong and persuasive arguments of the speaker, many mental resolutions were formed that will result in good to the Church, and to the world.

One of the greatest annoyances to which mankind are subject is the loss of eyesight. Half of the charm of life seems to have flown away forever the moment one has to resort to spectacles, and what makes the matter still worse, the poor unhappy patient, by the use of inferior glasses, (which are purchased simply because they are cheap,) is placed in a far worse position than before. No relief can be obtained except at the hands of a thoroughly educated scientific optician well versed in his profession. Such a man is Dr. M. Bernhardt, who has his office at the Yarborough House in this city. He uses glasses that are prepared with scientific accuracy, and in every instance they are found to be precisely the article needed. They preserve the eyesight instead of impairing it, and those of our citizens who have availed themselves of Dr. Bernhardt's professional skill are fully satisfied with im.

The Sunday School Convention.—This body met Friday morning, pursuant to adjournment.

J. M. Shelby, Esq., of Thomasville Sunday School, and Rev. John Jones, of Morehead City, were announced as Delegates, and took their seats in the Convention.

The consideration of the Constitution was resumed, and, after a discussion of the several articles, the same were adopted severally and as a whole.

The Committee then reported a resolution, nominating officers of the Society, in accordance with the Constitution, which was adopted and the officers unanimously elected, as follows:

President, Rev. W. H. Bobbitt.

VICE PRESIDENTS:

Raleigh District,		Rev L. L. Hendren.

Treasurer, W. J. Young Esq.

Secretary, R. W. Best Esq.

Cor. Secretary, Rev. W. E. Pell.

On motion of Dr. Hooker, a Resolution was adopted requiring the Vice President of the several Districts to co operate with the Sunday School Agent or Agents in the formation of District Societies.

A resolution offered by Rev. A. W. Mangum was adopted, appointing a Committee to report a formula for the conducting of Sabbath Schools.

The Committee consists of Revs. W. M. Robie, H. T. Hudson and Dr. O. Hooker.

On motion of Rev. E. A. Yates, it was resolved that after the addresses this evening, names of persons wishing to join the Society would be enrolled.

On motion of Rev. W. H. Bobbitt, the names of persons present wishing to become members of the Society were taken, and thirty-one members were enrolled.

A Resolution, offered by Rev. A. W. Mangum, was adopted, to appoint a Committee to report to next Conference, in regard to Sabbath School Agent, or Agents, and the propriety of publishing a Sabbath School paper.

The following constitute the Committee: Revs. A. W. Mangum, E. A. Yates, H. T. Hudson, J. B. Bobbitt, N. F. Reid, Dr. O. Hooker and William Hayes, Esq.

Resolution by Rev. W. H. Bobbitt offered and referred to Committee on formula, in regard to forming adult Bible classes in each Sunday School.

On motion of Rev. E. A. Yates, the Secretary was instructed to draw on the Treasurer for funds sufficient to purchase the necessary blank books for his use.

The Convention then took a recess until 4 o'clock, P. M.

4 O'clock, P. M.

Convention met. Prayer by Rev. S. R. Trawick.

Rev. E. A. Yates introduced a formula for the Government of Sabbath Schools, which was referred to the Committee on that subject.

On motion of Rev. E. A. Yates, a Committee was appointed to draw up an address on the subject of Sabbath Schools which the Pastors are requested to read to their several congregations.

Revs. A. W. Mangum, W. H. Bobbitt, N. F. Reid, H. T. Hudson and Dr. O. Hooker, constitute the Committee.

A resolution was offered by R. W. Best, Esq, for a Committee to report some plan to induce the whole membership of the Church to work in the interest of the Sabbath School, which was referred to the last named Committee.

Rev. T. M. Jones, President of Warrenton Female College, who arrived on the afternoon train, appeared and took his seat as a delegate.

Leave of absence was granted to a number of delegates.

Rev. Wm. E. Pell, who had been elected Corresponding Secretary of the Society, resigned the position, and the vacancy was filled by the election of Rev. H. T. Hudson.

The Convention then adjourned to 9 o'clock to-morrow morning.

Money Recovered.—We noticed on Friday the loss of $75.00 by an old colored man, and the fact that Isham Brewer, after an examination before the Mayor, was held to answer the charge of taking it—The money was recovered on Friday, in a very singular manner, by means of conjuration, but we have not room to give the particulars, to-day, and do justice to the subject, so we shall postpone a full report for next issue. We will say, however, that the matter was very skillfully managed by Mayor Harrison to effect the recovery of the money.

WASHINGTON.

Washington Sept. 17.—Revenue to-day over $500 0 0

Admiral Hoff has failed in two efforts to connect with the Secretary of the Navy, Robeson, to whom he desires to report orally regarding Cuba.

It seems understood that Treasury sales of gold and purchase bonds will be continued through October. Speculators are operating on this hypothesis.

Delano forbids packages of smoking tobacco of over one pound.

Spinner certifies that certain Confederate Securities submitted to him by the Prussian Government, are genuine, adding, however, that they are worthless. Their genuiness affects certain law suits in Germany.

Boutwell's circular which involves the biography of all Treasury employees was answered to-day. Several clerks, male and female, resigned rather than submit to the inquisition.

Judge Advocate Clinton has been relieved from duty in the Department of the South, and ordered to report for duty in the Fifth Military District.

Judge Advocate Gen. Dudley exonerates Clinton.

Consul Dudley, of Liverpool, reports infectious cattle disease, which first attacks the hoof and then the mouth, from licking the hoofs.—Animals of different species, contract the disease from each other.

Only half of the million of gold offered by the government yesterday was taken.

Mary M. Harris, negress, has been indicted at Macon Georgia for passing counterfeit money.—She swears, as State's evidence, that Shureman, the person on trial, took her to the house of H. M. Turner, late Postmaster at Macon Georgia, and left on her bed, $1,200, telling her, if asked where she got so large a sum to say she found it. Attempting to pass a portion of this money caused her arrest. Shureman told Mary Harris the money could be passed South, but not North.—There are three negroes on the jury.

A Denver, Colorado, dispatch says the Republicans have a clear majority in the Legislature.

The Executive Committee of the Convention for the removal of the National Capital, have resolved that where Governors refuse to appoint, to seat delegates appointed by members of Congress.

TENNESSEE.

Memphis, Sept. 17.—Wesley Thompson was arrested here, with Perry Fuller, for alleged revenue frauds, and taken from the care at Jackson, Tenn., en route for New Orleans, on a habeas corpus, and brought to Memphis and released on the ground that revenue officers could only commit or bail, but cannot send prisoners from the state. Thompson was immediately re-arrested but where also released on bail.

FOREIGN.

Paris, Sept 17.—The Emperor appeared on the streets yesterday.

The London *Star*, the Radical organ, states the difficulty between the United States and Spain is in a fair way of settlement.

There is a rumor of a proclamation guaranteeing religious liberty and freedom of election, shortly to be issued by the Spanish Government, which is a better omen. But if reports of the conduct of the military government in Cuba are true, these concessions must be preceded by one more essential, namely, that Cubans be permitted to live to enjoy them.

Advices have been received announcing the total wreck of the India Mail steamer "Carnatic" in the upper part of the Dead Sea. The passengers and crew reached the shore in safety. The mails and cargo, with a lot of specie, were lost.

MISSOURI.

St. Louis, Sept. 17. A cigar factory at Carlinville, Ill., with 60,000 cigars, was seized to-day for violation of the revenue laws.

VIRGINIA.

Richmond, Sept. 18.—The State Central Conservative Committee have adopted a resolution advising against the election of United States Senators at the meeting of the Legislature, October 5th.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappreciated. With this Press no man can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered in the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the press, any ordinary workman can put them up. The factories to here for a few days, and will take pleasure in explaining its merits.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug. 28. 1m

And $5,000 ready to pay a loss of No. 24,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$14,54
Equitable,	17,44
North America,	21,16
Brooklyn,	21,09
Universal,	27,24
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 500 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,357 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars and had amassed solid, a surely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

THE ANDAMAN MONKEY (MACACUS ANDAMANENSIS.)

The discovery in the Andaman Islands of a new species of quadrumina, a very important addition to our knowledge of this interesting country. One or two species of monkeys were known to exist on the adjacent Nicobar Islands, the common macque (M. cynomolgus) being one of them; but until Captain Brown brought home the present individual no monkey was known to exist on the Andaman Islands. One or more species of monkey being found on the Nicobar Islands would lead us to expect such a thing highly probable and had the same species of monkey been met with nothing very remarkable would have been thought about it; but the discovery of a species hitherto unknown upon the Islands that have already furnished us with a man and a pig that are quite unlike any of the neighboring races is a circumstance deserving particular attention and affords materials for much speculation and investigation. This new and unique monkey has been presented to the Zoological Society by Captain Brown, R. N., of her Majesty's ship Vigilant. It dates its joining the ship's company from Port Blair, Andaman Islands, in the Gulf of Bengal, lat. 11.43 N., long. 92.47 E., in the year 1864. Jenny (for that is her name) is supposed to be eight or nine years old. For the last four years she has "served" on board the ship, and having passed all the dangers of the Abyssinian campaign, and discharged with a first class certificate and silver chain and medal for good conduct is now waiting to receive her share of the prize taken during the time she was in her Majesty's service. Jenny stands about two feet four inches in height. In general appearance she is most like the "pig tailed" (Macacus nemestrinus) but is at once distinguished from this species by a remarkable arrangement of the hair on the top of the head, which is somewhat of a V shape. And is parted down the middle. The hair itself is very fine, and it is elegantly arranged round the ears. The first impression upon seeing this animal is, that it is intermediate between Macacus rhesus and Macacus nemestrinus. The face is by no means fierce, the features may even be called good natured. She has been made a great pet by the sailors; the result is that she has been educated to an extraordinary degree of cleverness. She is fond of company, and her constant companion is a chicken (a regular ship chicken, with hardly any feathers,) which lives with her in her cage day and night, and accompanies her in her perambulations. She walks upright on her hind legs with remarkable facility, and with much less effort than even the performing monkeys as seen in the London streets. When in an erect attitude she will carry things. Thus she will pick up her chicken and run about with it, holding it in her arms as a nurse does her child. The chicken does not seem to mind this in the least. At the word "Throw her overboard," Jenny throws the chicken smartly away from her. It has been said that monkeys would talk, but that they know that if they talked they would be made to work. Now the Andamanise Jenny forms an exception to the "working" part (only that is very agreeable work) of the story for if a soda-water bottle is given to her she will set to work to untwist the wire. This done, she will get out the cork, if it be not too tightly fixed, and then drinks the contents of the bottle. Her attitude in drinking is something quite new. She sits down on her haunches, holds the bottle with both hands, and tilts the end of it up with her hind foot, so that the liquid shall flow at the proper level into her mouth. In this attitude her appearance is most comical, and at the same time most interesting.—The most extraordinary part of Jenny's performances is that she smokes a pipe.—Most monkeys will carry a pipe in their mouth and pretend to smoke, but this is the first monkey that we have ever known actually to smoke lighted tobacco out of a pipe. Most Monkeys will drink grog, but Jenny is especially fond of it, and always takes her pipe, which she enjoys quite as much as Jack after he has been reefing topsails. Our friend Mr. Buckland has called to see Jenny; the fair Andamanian, devoid of shyness, repaid the compliments this gentleman offered her in monkey language by snatching a half smoked lighted cigarette out of his mouth, and did him the honor to finish it, throwing away the end when it threated to burn her lips. The Andaman natives are said to be the most degraded of human beings. If Jenny is an average sample of the monkeys, we would sooner be a monkey than a man if nature had cast our lot in the far distant Andaman Islands.—*Land and Water.*

A NEW TEXTILE PLANT.

Milk-weed covers the plains of Los Angeles and many other counties. Its effect on cattle are poisonous. Some good use for it would be a desideratum. It has been often wondered why no one has brought its fibre into notice. The fibre appears as strong as Manila hemp and as fine as linen. Mr. David Hall presents us a specimen from the plains of San Gabriel. The plant has a stout stalk. Its olive-colored leaves are very broad and fleshy, covering the stem from sight. Its seeds are enclosed in a pod much resembling large bean pods. The seeds present a beautiful appearance, impacked closely and in great numbers in the pod. Each seed is about the size of those of the locust or acacia, but flatter. It is adorned with a long, comet like tail of fine feathery construction, which serves as a stem-wing to float it on the air and give it wide distribution. In the pod the way the seed is packed is a model for economy of space. They look like the gracefully plated top of a spire, the lustrous wringlets being at the upper end of the pod, and closely compressed. The milk weed stands drought; for its vigorous life alone, when other vegetation fails, tempts cattle to browse on it and perish. There are, no doubt, many varieties from which to select the finest quality. We believe there is fortune in this fibre, and we call attention to it with a view to interesting our country friends in making researches. We tried, two years ago, to bring into notice the silver hemp of the Humboldt country, Nevada. It has a very strong fibre. The Central Railroad now runs through it for many a mile, and it affords every inducement to exploration.

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence to ENLARGE HIS LABORATORY AND FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued results in serious lesions of the Brain, Liver, Lungs, or urinary organs. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of CAUSING PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but KOSKOO should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical) are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
